	Floors from the Classic range have variation in their colour, shading, and pattern. This is reflected in a moderate number and size of knots, minor filled cracks, sapwood and colour variation in the floor, which gives it a more vibrant look. There is a moderate number of repaired knots, dark streaks, and structure variations, which all help to give the floor a natural appearance.	In stock	Yes, subject to availability
Wearing surface	3,5 mm	Notice	Wood is a living material, and therefore the delivered floor may vary from the sample. Up to 16 % can be in shorter lengths
